

6930 Helical DYNAC

Simple Design. Innovative Solution.

The 6930 Helical Dynamic Accumulator (DYNAC) is a simple, innovative solution with reliability that brings a dramatic improvement to packaging line performance through pressureless product handling and micro-stop elimination. The 6930 DYNAC brings better reliability, less downtime, and lower total cost of ownership. It is a single file DYNAC with FIFO accumulation and unique line balancing characteristics. The spiral configuration and space-saving design with expandable capacity add to its versatility, allowing it to fit effortlessly into the needs of any packaging line.

✓ Beer, Wine & Spirits	✓ Cans	✓ Cartons	✓ PET Bottles	✓ Personal Care & Household	✓ Bags	✓ Bowls & Trays	✓ Paperboard Products

Design & Accessibility

- Simple spider assembly
- Round configuration for smooth product migration
