Spider Rebuild Programs

Select One or Both: Spider or Spider Guide

Spider Guide

A Spider/Spider Guide rebuild should be completed every six months to a year, depending on usage and wear in production.

Spider

How does the program work?

1. You purchase a second Spider and/or Spider Guide at a discounted rate.
2. You ship us your original Spider and/or Spider Guide within 12 months of purchase.
3. We inspect all components for wear or damage and replace them if necessary.
4. We lubricate all internal gearing and bearing surfaces.
5. We ship your rebuilt parts within: 15 days for Spider, 15 days for Spider Guide, or 20 days for both.

Shipping costs are customer responsibility. If Spider/Spider Guide is not received within 12 months of spare part purchase, full price will be charged to customer.

Minimize Machine Downtime

Increase Durability

Specially Designed Crates

With your purchase of the Spider or Spider Guide rebuild program, you will receive a specially designed shipping crate to ship and store your parts.

Warranty

A rebuilt Spider/Spider Guide undergoes thorough inspection, repair, and testing to ensure it meets our quality standards, and has the same warranty as a new Spider or Spider Guide

Changes, upgrades, and updates are not included in the Spider & Spider Guide Rebuild Programs.
